

CARE & MAINTENANCE

Collection:	Paleo
Pattern:	Strata
Reference:	50570
Composition:	Non-woven wallcovering
Description:	Strata refers to the many sedimentary rock layers that reveal their past thanks to what you find in them. Pieces of broken pot, fossils, minerals and crystals. Strata suggests all kinds of layers of earth, sometimes damp and shiny, sometimes dull and dry. Together these form a supple, moving wavy pattern. There are so many shades in this semi plain, which create movement and depth.

During installation:

Carefully wipe off any adhesive stains immediately (before the adhesive has dried) with clean water and a soft sponge. Do this after installation of each length.

Maintenance:

First try to apply in an inconspicuous place. Try to remove any stains immediately, before the stain can dry out, by wiping off the surface with clean water and a soft sponge. Only use clear water, no soap.

Dry with a lint-free, clean cloth.

Avoid excessive rubbing of the surface. Avoid excessive soaking of the surface.

Dust can be wiped off with a damp, lint-free, clean cloth or a brush with soft bristles, or can be lightly vacuumed with a soft bristle attachment to avoid damaging the surface.

Arte can not be held responsible if damage is caused to the product during the cleaning process.
