

CARE & MAINTENANCE

Collection:	Metal X Patina
Pattern:	Chalk Stone
Reference:	60124 • Silver
Composition:	Metallic wallcovering on non-woven backing
Description:	A design that is all about detail and a homage to travertine, a chalk stone used to make sustainable artisan tiles. The Romans used travertine to build large parts of Rome, including the Colosseum. This metallic variant stands out because of its simplicity.

During installation:

Carefully wipe off any adhesive stains immediately (before the adhesive has dried) with clean water and a soft sponge. Do this after installation of each length.

Maintenance:

First try to apply in an inconspicuous place. Try to remove any stains immediately, before the stain can dry out, by wiping off the surface with clean water and a soft sponge. Only use clear water, no soap.

Dry with a lint-free, clean cloth.

Avoid excessive rubbing of the surface. Avoid excessive soaking of the surface.

Dust can be wiped off with a damp, lint-free, clean cloth or a brush with soft bristles, or can be lightly vacuumed with a soft bristle attachment to avoid damaging the surface.

Arte can not be held responsible if damage is caused to the product during the cleaning process.
